

ONLINE COURSE DETAILS

Course Title	REACHING NET ZERO
Course Aim	More and more organisations are making their commitments to reach Net Zero targets. Start your journey with our new half day course which offers a step-by-step guide on how to prepare for and reach your targets.
Course Description	This course will outline a typical road map to achieving the desired targets and practical measures to achieve them. It will highlight where the carbon impact can come from, how to create a strategy for reduction of emissions, identification of the practical measures needed as well as auditing and verifying progress.
Course Outcomes	The course will help you to: <ul style="list-style-type: none">- Identify where the impact contributing achieving Net Zero targets can come from within your organisation;- Scope relevant measures necessary for meeting the targets;- Understand how to prepare a carbon reduction strategy and calculate the path for achieving it;- Audit and verify progress.
Course Structure and Features	<p>This course is to be delivered as a half-day online session through Zoom.</p> <p>The course structure outlined below is indicative as some sections may be amended to assure the best outcomes for participants. Participants are encouraged to contribute with their own experiences and examples.</p> <p>The course material such as slide pack and any other necessary information will be issued by the course tutor at the beginning of the course and throughout.</p>
